RETURN IN TEN DAYS TO

THE UNIVERSITY OF WYOMING

LARAMIE. WYOMING

Aven & Ruth Nelsen

1 – 35

Nos. 521 – 869

870 – 1008

76 – 151

In completing data on some of my collections, I am handicapped by my carelessness in neglecting to get names for certain localities:

Sovereign Hot Spring 1 Name of the hot spring with the log walls about it.

La Cueva 2 Name of the park two miles farther up where the two streams came together and the road forked.

Valle Grande 3 Name of the big crater and the region roundabout it.

Boyd's Ranch 4 Name of the locality where the fringed gentians grew.

Old Cuba Copper mine 5 Name of the locality where we lunched on the Cuba trip

6 Name of the white cliffs and sand draws where we collected about mid-afternoon on the Cuba trip

1 mi. North & Kaseman's well

Hiway 3 mi. N. & San Ysidro. 7 Name of the Spring where we got the Allen rolls a later that day, and this has no special name. There are a no. of such springs in that immediate locality

Don't take much time on this. Use the numbers and answer briefly, perhaps on the back of this sheet.

Thank you. Aven Nelson
